LESSON!!!**

HOW OUR LESSONS WORK

Our experienced tutors will guide students through everything from first picking up a guitar to playing their first show! We work on real songs and riffs in all of our lessons and focus on giving kids a fun and engaging introduction to music.

We provide all of the equipment needed during our lessons, students can even hire a guitar to take home for a small cost.

Let's chat to identify the school's needs and requirements. Our team can handle all aspects of administration and payment processing, simplifying the process for you.

"My son absolutely loves his weekly guitar club. It's amazing how much confidence he's gained by playing for fun with others. We love hearing him play songs that he genuinely enjoys learning- and the new skills that each require. We would definitely recommend the Oxfordshire Music School"
